

# JAMAICA – OIL AND GAS EXPLORATION OPPORTUNITIES

Of the 20 offshore blocks eight are held under license. Blocks 6, 7, 10, 11, and 12 are under license to FINDER/Gippsland joint venture, an Australian group. Blocks 9, 13 and 14 are licensed to Rainville of Calgary Canada.

The entire onshore (4 blocks) are available for exploration contracts (17,790 km<sup>2</sup>). The fundamentals of licensing arrangements are as follows:

1. Production Sharing Arrangements will be the basis of all licences. A Model Production Sharing contract is available.
2. Royalty is a negotiable item.
3. There will be a 5-year exploration period and a 20-year production period. Both these periods are extendable.

A data package which contains a detailed report on the petroleum prospectivity as well as seismic, geochemical and

stratigraphic information is available for purchase.

Interest in the purchase of the data package should be directed to:

MD OIL Limited  
68 Glade Road,  
Marlow, Bucks  
SL7 1DH, England  
Tel# 44 (0) 7908 208345

**Attention: Chris Matchette-Downes**

This informal second round of bidding closes on **June 1<sup>st</sup> 2007**. The proposals from interested companies should indicate a work programme, a budget and a suggestion as to the production sharing arrangements envisaged. Consideration will be given to proposals during this time on a first come first serve basis. All proposals are subject to further negotiation.

Proposals should be sent by June 1<sup>st</sup> 2007 to:

Special Projects Manager  
Petroleum Corporation of Jamaica  
P.O. Box 579  
36 Trafalgar Road  
Kingston 10
